We will fill orders from dealers for the prepare strice of T-00 B-100, for a close time, on the terms bereichner The self of the colors from database and the promote service of the colors and th Misrellane would be about one hundred and thirty-four millions.
But the Shole of this amount will not be by any means required for the force retained in services. No large hoursts will hereafter have to be paid; many millions will no note be required for the survements, from the edgewides of war, of which similar from one part of the country to mother. The Quitermater's Department can dispose with the coulty institutions of he immense steam and ashing freets and of No almosed embrychess. Plain transportation will be necessary only west of the Missianipel. The hunge workshops are being closed and the host of wardmen discharged. The Commissary General will be along to obliged to buy at prices forced up by speculation. The minimization of the man adminimization will cause. And do on. One Assafred milition will cause. And do on. One Assafred milition will be shaply sufficient to feed, distill and pay all that will rumate in the service of the opening of the next Congress.

In the Navy Department equiry sweeping reductions have been made and are making from the commission. It force on the pay laid of forty thousand will be residued to woon or eight floorand. After the expense of constructing numerous may execute the seaso of eight floorand. After the expense of constructing numerous may execute all have ceased, the yearly bedged of this Department and also bedge flower. In the other Departments extracted and the additions to the profitch list will probably well the expenditures made the head of the stell writes some millions. An over the made of a stry-one millions. An over the made of a stry-one millions. An over the made of the stell writes some millions. An over the made of the stell writes some millions. An over the made of the stell industry the millions. An over the mail to the conduction of the profitch increase, we have a feet of a stry-one millions. An over the made of the stell industry the millions. An over the made of the stell industry that the made of the stell industry the millions. The millions are the profitch COMMERCIAL the evidentity purely from imagination in the control of the many parts of the minimal and foots hid provided summer trains who confuses to have a confused to wrette. The control of the words the ment of the control of the contr State of the state chers who were known to be dishoused. It was a curious state of affairs, and required peculiar treatment.

On a warm summer affermoon a lady hand-somely dressed was politicly assisted into a car on a certain road by a conductor. It was an hour when but few people were travelling in the direction in which the car was going the conductor was idle, this lady was talks, tive, and before the end of the lourner was reached the lady was to planted with the attention shown her that side determined to ridus again in the same our on the nucceeding after the conductor, and when in conversation he was asked "whether the life of a conductor was not an unprofitable one," he freely admitted, "not if you pay your driver hand-intended. thers who were known to e and Previseror Secting the just 1 od with the novement for lar same |
